## PROFESSIONAL SUMMARY

As a final-year Information Technology student with a strong foundation in software development, web technologies, and problem-solving, I am passionate about leveraging my skills to contribute to innovative and impactful projects. I am seeking a position in the engineering industry where I can apply my technical expertise, learn continuously, and grow as an IT professional. With a diligent and analytical mindset, I am committed to delivering high-quality solutions and driving success in a dynamic and challenging environment.

## EXPERIENCE

*Backend Developer Intern, **Astute Lex Servicado Pvt. Ltd.**, Remote*  
(March 2025 - May 2025)

- Built and maintained REST APIs using Django and DRF.
- Designed normalized DB schemas in PostgreSQL/MySQL with indexing and constraints to boost performance and maintain data integrity..
- Implemented JWT-based authentication and secured APIs against CSRF/XSS using Django middleware and input sanitization.
- Wrote unit tests with Django's testing framework to validate APIs and models.

*Software Developer Intern , **KIDA Studios Pvt Ltd**, Pune*  
( Jul 2024 - Sep 2024)

**Domain:-** Django Rest Framework

- Invoice PDF Generator: Built using Django REST Framework to automate invoicing, reducing manual effort by 40%.
- Image Compression System: Developed an image storage and compression tool that cut file sizes by 50% without quality loss.
- To-Do App: Created a Django-based app for managing tasks (add, update, delete) with full CRUD functionality.

## EDUCATION

**Bharati Vidyapeeth College of Engineering, Pune**

B.Tech| IT | (Dec 2021 - June 2025) | CGPA: 9

**Milestone Academy, Bhilai, Chhattisgarh**

- XII (Science), 2021: 78.4%
- X, 2019: 81.2%

## LEADERSHIP & ACTIVITIES

**Administrative Secretary|Rotaract Club of Pune Wisdom - 2023-24**

**Program Co-ordinator | Information Technology Student Association - 2023-24**

## SKILLS

- **Programming Languages:** Python,HTML,CSS
- **Frameworks & Tools:** Django REST Framework, GitHub (Version Control)
- **Databases:** MySQL
- **Cloud & Security:** Cloud Computing, Cybersecurity, Networking
- **Other Skills:** Software Testing, Power BI, Data Structures

## ACADEMIC PROJECTS

### • Smart Car Parking System

Detects the empty slots and helps the driver to find parking space using IR Sensors, microcontrollers,Arduino UNO,etc.

### • Blogging Platform

Built a Blog Application to post blogs using DRF and created user authentication and made an interactive API for users to register and login.

### • Organization Management System

Designed to manage organizations, teams, users, and repositories similar to the functionality found in GitHub.

### • Sydney Events Web App + GPT Telegram Bot

Built a Django-based web app to scrape and display Sydney events with email capture and ticket redirection. Integrated a GPT-powered Telegram bot via OpenRouter to recommend events based on user queries using real-time data.

**Tech:** Django, REST API, Bootstrap, SQLite, GPT (OpenRouter), Telegram API

## CERTIFICATIONS

- Cloud Computing (NPTEL)
- Introduction to Database Systems (NPTEL)
- Database Structures and Management with SQL (Coursera)
- Advanced SQL (Coursera)
- Cybersecurity for Everyone (Coursera)
- Web Development (1stop.ai by Raise Digital)
- Python (Coursera)
